Summary

Computer Science graduate with experience in Python, JavaScript, MySQL, OpenCV, Machine Learning, and Automation. Currently working as a SOC Analyst at Bharti Airtel with hands-on experience in Python scripting, Linux, Windows, and log analysis. Skilled in Data Structures, Object-Oriented Programming, DBMS, and problem-solving. Passionate about developing scalable applications and automation solutions.

Experience

Bharti Airtel

SOC Analyst

Nov 2024 – Present

Gurgaon

- Developed Python scripts to automate repetitive tasks and improve operational efficiency.
- Worked with Linux and Windows environments for monitoring and troubleshooting.
- Analyzed system logs and events to identify issues and improve response time.
- Collaborated with cross-functional teams to optimize workflows and processes.
- Performed incident analysis and supported security monitoring activities.

Projects

Hand Gesture Recognition

Python, OpenCV, MediaPipe

- Built a real-time hand gesture recognition system using computer vision techniques.
- Implemented hand landmark detection and tracking using MediaPipe and OpenCV.
- Optimized image processing algorithms for improved performance and accuracy.

Portfolio Website

HTML, CSS, JavaScript

- Designed and developed a responsive personal portfolio website.
- Implemented interactive UI components and optimized user experience.
- Improved accessibility and mobile responsiveness.

Weather App

HTML, CSS, JavaScript

- Developed a responsive weather application using HTML, CSS, and JavaScript.
- Integrated REST APIs to fetch and display real-time weather information.
- Implemented city-based search functionality for retrieving weather data.
- Displayed temperature, humidity, wind speed, and weather conditions through an interactive user interface.

Telegram Bulk Message Sender

Python, Telethon API

- Built an automated Telegram messaging application using Python and Telethon API.
- Implemented contact management and bulk message delivery functionality.

- Developed reusable modules for improved maintainability.

Student Management System

Python, MySQL

- Developed a CRUD-based application for managing student records.
- Implemented add, update, delete, and search operations.
- Designed relational database schemas and optimized SQL queries.

Education

Techno International Batanagar

2020 – 2024

Bachelor of Technology in Computer Science and Engineering

CGPA: 8.32/10

Certifications

- Wells Fargo Software Engineering Job Simulation (Forage) [View Certificate](#)
- Programming with Python (Internshala Trainings) [View Certificate](#)
- AWS Machine Learning (Coursera) [View Certificate](#)
- IBM SkillsBuild with AICTE and Edunet Foundation [View Certificate](#)
- Machine Learning and Deep Learning in Python and R (Udemy) [View Certificate](#)

Technical Skills

Programming Languages: Python, C, JavaScript, SQL

Web Technologies: HTML, CSS, JavaScript

Database: MySQL, SQLite

Libraries/Frameworks: OpenCV, MediaPipe, NumPy, Pandas

Developer Tools: Git, GitHub, VS Code, IntelliJ IDEA

Platforms: Linux, Windows

Domains: Machine Learning, Artificial Intelligence, Automation, Computer Vision

Concepts: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Languages

English, Hindi
